LUXAR
Lighting for Life

With Integrated Dimmable Driver

Thank you for purchasing our product. This fixture has been manufactured from components with advanced optoelectronics to ensure high reliability and long life. Before assembling please read this Operation Manual carefully and save in a safe place for future reference. Please note that all electrical connections must be in accordance with local and National Electrical Code standards as well as local building codes. In case you are not familiar with proper wiring connections and building codes, consult a qualified electrician.

Specifications:

LED Flush mount light

Operating Voltage: 120VAC

Dimming: Triac

CCT: 27/30/35/40/50K selectable   RA:90
